COVER LETTER

Dear Hiring Manager,

I am a Software Developer with 4+ years of experience building scalable systems using **Java, Spring Boot, GraphQL, Microservices, AWS, GCP**, and **CI/CD** practices. I have contributed to high-impact projects by improving **API performance**, modernizing **legacy systems**, and delivering reliable cloud-native solutions in **Agile environments**. I enjoy solving complex engineering problems and collaborating across teams to deliver high-quality products. I am open to opportunities across **Europe** and fully willing to **relocate**.

Kind regards,
Atchuth Yashwanth Kosuru
